

## **VALUE OF INDIAN LIVES !!**

A train blast in Mumbai kills approximately 500 Indians and injures hundreds others. The reaction from the apparent superpower (The great USA) is that India must show restraint in its actions and urges for a political solution to the Kashmir problem. On the other end of the globe in the same evening 6 Israeli soldiers are killed and 2 are captured by Islamic terrorists. Israel prepares for a full front attack on Lebanese settlements and the same superpower says that the terrorists should be dealt with a firm and iron hand.

Is it true that just because the population of India is more than 1 billion, the value of a human life in India is that much less as compared to an American, British, Israeli or any other European life? North Korea test fires a missile and the US moves a Battle Carrier group to the Pacific Ocean!! The right to self defend should lie with every individual and country. It is high time that all of us as patriotic Indians do not take this thing lying down and ensure that each of us in their individual capacity spread this message of injustice across the world.

For the death of 45 British citizens in a similar bomb blast last year, it was a world wide tragedy on CNN, while for the train blast event the quote on CNN was "in their fight over disputed Kashmir" the two countries ( Pakistan & India ) should look for a political solution. May we all ask where was the political solution when the IRA wanted a separate homeland, and closer to the date where is the political solution in Iraq? Kashmir was, Kashmir is and Kashmir will continue to be an integral part of our motherland.

Let us all Indians pledge not to be governed by vested interests in US Foreign Policy and take our own destiny in our hands.
